Entry-Level DevOps Engineer | Cloud Support | Linux | CI/CD | AWS

Summary

Computer Science Postgraduate with hands-on exposure to Linux, AWS EC2, Docker, Jenkins, Maven, Tomcat, and CI/CD pipelines. Built DevOps projects covering build automation, WAR artifact generation, deployment automation, troubleshooting, and infrastructure monitoring workflows.

Technical Skills

- **Cloud & Infrastructure:** AWS (EC2, S3, IAM, VPC, CloudWatch), Amazon Linux, Security Groups
- **DevOps & CI/CD:** Jenkins, GitHub SCM, Git, GitHub Actions, YAML, Build Automation
- **Containers & Orchestration:** Docker, Docker Compose, Kubernetes Basics (kubectl, Pods)
- **OS, Automation & Monitoring:** Linux/Unix, Bash Scripting, Terraform Basics, Ansible Basics, Prometheus, Grafana
- **Networking & Databases:** SSH, Nginx, DNS, TCP/IP, Python, FastAPI, PostgreSQL, SQL Basics

Internship

iStudio Pune, Maharashtra
DevOps Intern – Training & Projects December 2025 – May 2026

- Completed DevOps training covering SDLC, Linux, Git, Maven, Tomcat, Jenkins, and CI/CD fundamentals.
- Built two guided hands-on projects on Jenkins Maven build automation, WAR packaging, and Tomcat deployment.
- Practiced GitHub SCM, Tomcat configuration, Jenkins job setup, Linux commands, and troubleshooting through labs.

Projects

CostGuard PADE – FinOps Cost Governance Platform [GitHub]
Python, FastAPI, PostgreSQL, Docker Compose, OPA, GitHub Actions

- Built a Docker Compose-based FinOps platform using FastAPI, PostgreSQL, OPA policy checks, validation scripts, and GitHub Actions.
- Integrated monitoring artifacts, tests, reproducibility docs, and LaTeX outputs for cost-governance validation.

Jenkins GitHub Maven Tomcat Integration on AWS EC2 [GitHub]
Jenkins, Maven, Tomcat, AWS EC2, GitHub SCM

- Implemented a Jenkins-to-Tomcat deployment automation pipeline using GitHub SCM, Maven WAR packaging, Tomcat 9, and Deploy to Container plugin.
- Configured Tomcat Manager, AWS Security Group rules, and browser verification to troubleshoot and validate deployment.

Jenkins CI Automation for Maven Web Application on AWS EC2 [GitHub]
Jenkins, AWS EC2, GitHub SCM, Maven, Java

- Configured Jenkins Freestyle CI on AWS EC2 to pull a Maven WebApp from GitHub SCM, run Maven goals, and generate a verified WAR artifact.
- Resolved Jenkins node offline and Maven WAR plugin compatibility issues during CI build execution troubleshooting.

Education

Sir Parshurambhau College Pune, Maharashtra
Master of Science in Computer Science, CGPA: 8.98/10 July 2024 – May 2026

Sir Parshurambhau College Pune, Maharashtra
Bachelor of Science in Computer Science, CGPA: 6.8/10 July 2020 – October 2023
